Pranil Agri Services LLP

We are leading Manufacturing and Marketing Company based at Pune, Maharashtra. We are manufacture of Plant Growth Nutrients, Plant Growth Promoters, Bio Pesticides and Bio Fungicides. This company founded with vision of providing residue free agricultural produce to Indian farmers. The company was established with mission of giving training and education to farmers for use of organic fertilizers, pesticides and fungicides which helps to grow residue free cereals, pulses, fruits and vegetable.

ABOUT COMPANY

We Group Company of **Pranil Agri Services LLP** a leading Manufacturing and Marketing Company based at Pune, Maharashtra. We manufacture Micro nutrients, Water Soluble Fertilizers, Soil Health Products, Plant Growth Nutrients, Plant Growth Promoters, Bio Pesticides and Bio Fungicides. This company founded with vision of providing residue free agricultural produce to Indian peoples. The company was established with mission of giving training and education to farmers for use of organic fertilizers, pesticides and fungicides which helps to grow residue free cereals, pulses, fruits and vegetable.

MILESTONE

Dec 2017

Established

June 2018

Introduced 17 Products in the Market

June 2019

Introduced 3 Organic Products in the Market

June 2020

Covering Almost All Maharashtra State

June 2021

Received G2 Certificate for Maharashtra State.

FOUNDER & DESIGNATED
PARTNER

The company has launched in the year of 2017 with deep knowledge, vast and rich experience with many years of research work with a residue-free farming team. They have integrated traditional wisdom and skills with modern science and technology. With their expertise, experiences, and enthusiasm, we are successfully manufacturing residue-free agricultural inputs. These products are being used in residue-free farming. These products are free from chemicals and have no toxicity to soil, nature, and mankind.

OUR SERVICE

- **Service 01**

Providing Quality Product to Farmers

- **Service 02**

Free Consultation on Crop Management to Farmers

Pranil

OUR PRODUCT

Category :- Bio Insecticide

Shield is 100% Biological and Eco friendly product, which is produced from Botanical Extracts, enzymes and Microbial Extracts. Shield is useful in control – Thrips, Aphids, Jassids, White fly and Red mites. It can be used in Organic as well as Residue Free Farming. It having “Zero” days PHI.

- Mode of Application – Foliar
- Application Dose – 2 ML / Ltr. of Water

Packing Size :- 100 ML, 250 ML, 500 ML and 1 Liter

Thrips

White fly

Red mites

SHIELD

OUR PRODUCT

Category :- Bio Insecticide

Antivirus is 100% Eco friendly product, which is produced from different Botanical extracts, Enzymes and Microbial Extracts. This product is useful in control – Yellow Vein Mosaic and Leaf Curl Virus. It can be used in Organic and Residue Free Farming. Antivirus having “ZERO” days PHI.

- Mode of Application – Foliar
- Application Dose – 2 ML / Ltr of Water

Packing Size :- 100 ML & 250 ML

Leaf Curl Virus

Yellow vein Mosaic

ANTI VIRUS

OUR PRODUCT

Category :- Bio Insecticide

Guard is 100% Eco friendly product, which is produced from different Botanical Extracts. This product is useful in control – Leaf minor and Tuta absoluta. It can be used in Organic and Residue Free Farming.

- Mode of Application – Foliar
- Application Dose – 2 - 3 ML / Ltr of Water

Packing Size :- 250 ML & 500 ML

Leaf Miner

Tuta Absoluta

GUARD

OUR PRODUCT

Category :- Bio Insecticide

Morder is 100% Eco friendly product, which is produced from different Botanical Extracts. This product is useful in control - Fruit and Shoot Borer. It can be used in Organic and Residue Free Farming.

- Mode of Application - Foliar
- Application Dose - 2 - 3 ML / Ltr of Water

Packing Size :- 250 ML & 500 ML

Leaf eating catterpillar

Fruit Borer

MORDER

OUR PRODUCT

Category :- Bio Insecticide

Dora is 100% Eco friendly product, which is produced from different plant extracts. This product is useful in control – Mealy bugs. It can be used in residue free farming. Dora does not contain any chemical.

- Mode of Application – Foliar
- Application Dose – 2 ML / Ltr of Water

Packing Size :- 500 ML & 1 Liter

Mealy Bug Infestation

DORA

OUR PRODUCT

Category :- Bio Fungicide

Fosforo is produced from Potassium Salt of Long Chain of Phosphorus. This product is useful in control - Powdery mildew, Downy mildew, Anthracnose, Early blight and Late Blight and Wilting.

Downy mildew

Anthracnose

- Mode of Application - Foliar
- Application Dose - 2 GM / Ltr of Water

Packing Size :- 100 GM, 250GM, 500 GM & 1 KG

Powdery mildew

FOSFORO

OUR PRODUCT

Category :- Bio Fungicide

Fighter is derived from Proteins and Eugenol. This product 100% Eco friendly. Fighter is useful in controlling – Powdery mildew, Downy mildew, Anthracnose, Early blight and Late Blight and Wilting. It damages the exposed hyphae of the fungal organisms morphological and by disrupting the cell membrane results in subsequent destruction of fungal cells. This product can be used in Organic and Residue Free Farming. Fighter having “ZERO” days of PHI.

- Mode of Application – Foliar
- Application Dose – 2 ML / Ltr of Water

Packing Size :- 100 ML, 250ML, 500 ML & 1 LTR

Downy mildew

Anthracnose

Powdery mildew

OUR PRODUCT

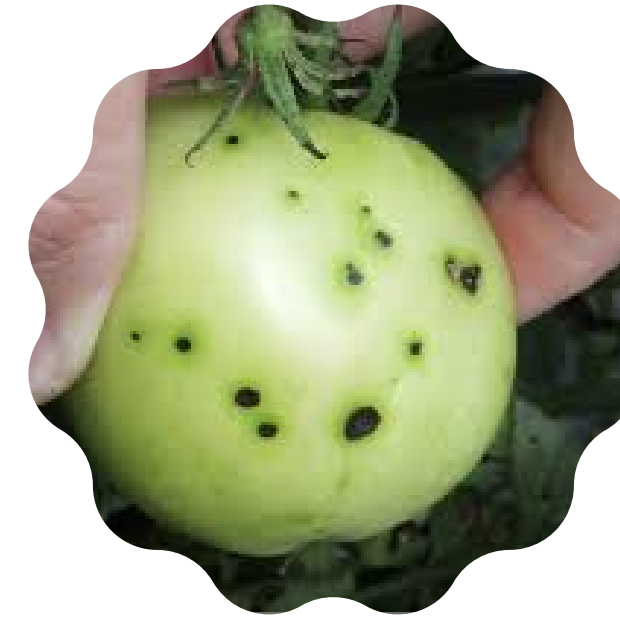

Category :- Bio Fungicide

Ranger is derived from Proteins and Eugenol. This product 100% Eco friendly. Fighter is useful in controlling - Early blight and Late Blight and Wilting. It damages the exposed hyphae of the fungal organisms morphological and by disrupting the cell membrane results in subsequent destruction of fungal cells. This product can be used in Organic and Residue Free Farming. Ranger having "ZERO" days of PHI.

- Mode of Application - Foliar
- Application Dose - 2 GM / Ltr of Water

Packing Size :- 100 GM, 250 GM, 500 GM & 1 KG

Black Spot

Bacterial Blight

Bacterial Blight

RANGER

OUR PRODUCT

Category :- Bio Fungicide

Lutador is derived from Botanical and Microbial extract. It is 100 % Eco friendly product. This product is useful in control - especially "Bacterial Blight" in pomegranate and other crops.

- Mode of Application - Foliar
- Application Dose - 2 - 3 ML / Ltr of Water

Packing Size :- 500 ML & 1 LTR

"Telya" in Pomegranate

LUTADOR

OUR PRODUCT

Category :- Plant Growth Promoter

Pamella containing Sea weed Extract (*Ascophyllum nodosum*) flakes. It helps also boosts crop yields, improves resistance of plants to frost and disease, increases uptake of inorganic constituents from the soil, bolsters resistance to stress conditions and reduces storage losses of fruit.

- Mode of Application – Foliar & Drip .
- Application Dose – Spray – 1 GM / Lit. of Water
Drip – 200 GM / Acre

Packing Size :- 100 GM & 200 GM

Vigorous Growth

More Branching

More Flowering

PAMELLA

OUR PRODUCT

Category :- Plant Growth Promoter

Amino Gold is a combination of Protein Hydrolystae, Seaweed Extract and Fulvic acid. Amino gold helps in increasing vigor in all crops. It helps in increasing branching, tillering, flowering, fruit setting, fruit size. It also helps in reducing stress due to atmosphere or low water availability. Amino gold helps in increasing production with high quality and long shelf life of produce.

- Mode of Application – Foliar & Drip .
- Application Dose – Spray – 1 GM / Lit. of Water
Drip – 250 GM / Acre

Packing Size :- 100 GM & 250 GM

Increase Flowering

Betetr
Fruit Seting

Better Size & Weight

**AMINO
GOLD**

OUR PRODUCT

Category :- BioStimulant

Rico is a powerful Biostimulant which having metabolically active compounds. Rico helps in enhancing photosynthesis activity and uptake of nutrients in plants. Rico also actively involves in cell division and cell elongation. Rico is a biostimulant useful in all leafy vegetables to increase the vigor and luster in crop production. Rico also helps in increasing flowering and fruit setting and decreases flower and fruit drops. Rico increases weight and shine of fruits and vegetables. Farmers can use Rico at any stage of crop to increase the quality production. Amino gold helps in increasing production with high quality and long shelf life of produce.

- Mode of Application – Foliar
- Application Dose – Spray – 25 ML / 150 Lit. of Water

Packing Size :- 25 ML, 50 ML & 100 ML

Vigorous Growth

Better Size

Better Quality

Powerful
Biostimulant

RICO

OUR PRODUCT

Category :- Plant Growth Promoter

Aminosan contains combination of Humic, Amino Acid & Fulvic Acid. It helps in improving white root development, improves overall growth of plants, more tillering, more cell division, more flowering. It improves uptake of nutrients.

Increases White roots

Increases Flowering

- Mode of Application – Foliar & Drip .
- Application Dose – Spray – 2- 3 ML / Lit. of Water
Drip – 1 Liter / Acre

Packing Size :- 500 ML, 1 Liter & 5 Liter

Vigorous Growth

AMINOSAN

OUR PRODUCT

Category :- Plant Growth Promoter

Fulvico contains Fulvic Acid 15 %. Fulvico is a powerful organic electrolyte. It helps in enhancing cell division and elongation. It helps in increase in chlorophyll production and increase in uptake of plant nutrients. It helps in dissolving minerals and trace elements. It offers drought protection, due to improved moisture storage. It is responsible for an increase in stomata opening and transpiration and assists plant respiration as well as improving the respiration of beneficial micro-organisms.

Induces Flowering

- Mode of Application – Foliar & Drip .
- Application Dose – Spray – 2- 3 ML / Lit. of Water
Drip – 1 Liter / Acre

Packing Size :- 500 ML, 1 Liter & 5 Liter

FULVICO

OUR PRODUCT

Category :- Plant Growth Promoter

Pralgas contains Sea weed Extract in liquid form. Pralgas helps in increasing shelf life of fruits and vegetables. It helps in increase in nutrient uptake, the protein content and overall quality of crop. It also boosts crop yields, improves resistance of plants to frost and disease, increases uptake of inorganic constituents from the soil, bolsters resistance to stress conditions and reduces storage losses of fruit. It acts as a soil conditioners. It helps in development of white root of crop. It helps in increasing sugar / brix level in fruit crops. It helps in improve uniformity in shape and size.

- Mode of Application – Foliar & Drip .
- Application Dose – Spray – 2- 3 ML / Lit. of Water
Drip – 1 Liter / Acre

Packing Size :- 500 ML, 1 Liter & 5 Liter

Vigorous Growth

More Branching

More Flowering

PRALGAS

OUR PRODUCT

Category :- Plant Growth Promoter

Radix contains Potassium Humate. It provides favorable conditions for biological activity, chemical reactions and physical improvements of soil. It increases white root development which results in consumption of applied fertilizers and water to crop. It improves fertilizers efficiency hence requirement of chemical fertilizers reduced. It helps in reducing leaching of fertilizers and pesticides. It helps in increasing crop yield and quality. It helps in strengthening crop resistance to disease and pests. It helps in drought conditions as it helps soil to retain water.

- Mode of Application – Foliar & Drip .
- Application Dose – Spray – 2 GM / Lit. of Water
Drip – 500 GM / Acre

Packing Size :- 500 GM

**Induce & Increases
flowering**

RADIX

OUR PRODUCT

Category :- Plant Growth Promoter

Albero contains Protein Hydrosylate which leads to improve growth of crop. It helps in increasing in fruit setting in all fruit and vegetable crops. It helps in tolerance of biotic and abiotic stress tolerance. It also helps in increasing bunch size in Grapes and reducing flower dropping in Pomegranate.

- Mode of Application – Foliar
- Application Dose – Spray – 1 - 2 ML / Lit. of Water

Packing Size :- 100 ML, 250 ML, 500 ML & 1 Liter

**Enhance Flowering
&
Increases Fruit Setting**

OUR PRODUCT

Category :- Plant Growth Promoter

Zara helps in inducing flowering in the plant. It is a powerful organic electrolyte. It helps in enhancing cell division and elongation. It helps in increase in chlorophyll production and increase in uptake of plant nutrients. It helps in dissolving minerals and trace elements. It offers drought protection, due to improved moisture storage. It is responsible for an increase in stomata opening and transpiration and assists plant respiration as well as improving the respiration of beneficial micro-organisms. It helps in increasing immune system of plants. It helps in enhancing photosynthesis activity which is helpful in cloudy weather. It increases resistance against fungal attack.

- Mode of Application – Foliar
- Application Dose – Spray – 1 - 2 ML / Lit. of Water

Packing Size :- 100 ML, 250 ML, 500 ML & 1 Liter

**Induce Flowering
&
Increases flowering**

OUR PRODUCT

Category :- Plant Growth Promoter

Zoma Gold having high concentration of Amino Acid, Vitamin B1, B2, B6 & B12. It provides uniform elongation, size and weight of the fruit. It helps in enhancing luster and keeping quality of fruits when sprayed before harvesting. It helps in increasing sugar content of the fruits. It helps in improving keeping quality which results in better market value for the produce. It does not show any effect or residual problem in fruits.

- Mode of Application – Foliar
- Application Dose – Spray – 1 Liter / Acer

Packing Size :- 500 ML & 1 Liter

Enhance Fruit Size, Shape & Quality

**ZOMA
GOLD**

OUR PRODUCT

Category :- Plant Growth Promoter

Hulk provides uniform elongation, size and weight of the vegetables and tuber crops. It helps in enhancing luster and keeping quality of fruits when sprayed before harvesting. It helps in increasing sugar content of the fruits. It helps in improving keeping quality which results in better market value for the produce. It does not show any effect or residual problem in fresh produce.

- Mode of Application – Foliar & Drip
- Application Dose – Spray – 2 ML / Lit. of water
Drip - 1 Liter / Acre

Packing Size :- 250 ML, 500 ML & 1 Liter

**Enhance Fruit Size,
Shape & Quality**

OUR PRODUCT

Category :- Plant Growth Promoter

YODHA is a unique blend of Microbes and Enzymes which is beneficial for decomposing Soil Organic Matter. It is helpful in increasing the availability of minerals and nutrients to the plants from organic source which leads to minimize the use of chemical fertilizers. Microbes present in the product secrete acids from their body which helps in degradation of nutrients and minerals. It helps in activate microbial activity in the soil. It helps in enhancing biochemical reactions in the soil, which leads to increase the soil porosity. It helps in improving soil water holding capacity which helps in drought situations. It helps in maintain plant stability.

- Mode of Application - Drip
- Application Dose - Drip - 5 Liter / Acre

Packing Size :- 250 ML, 500 ML & 1 Liter

Increases Soil Health

YODHA

OUR PRODUCT

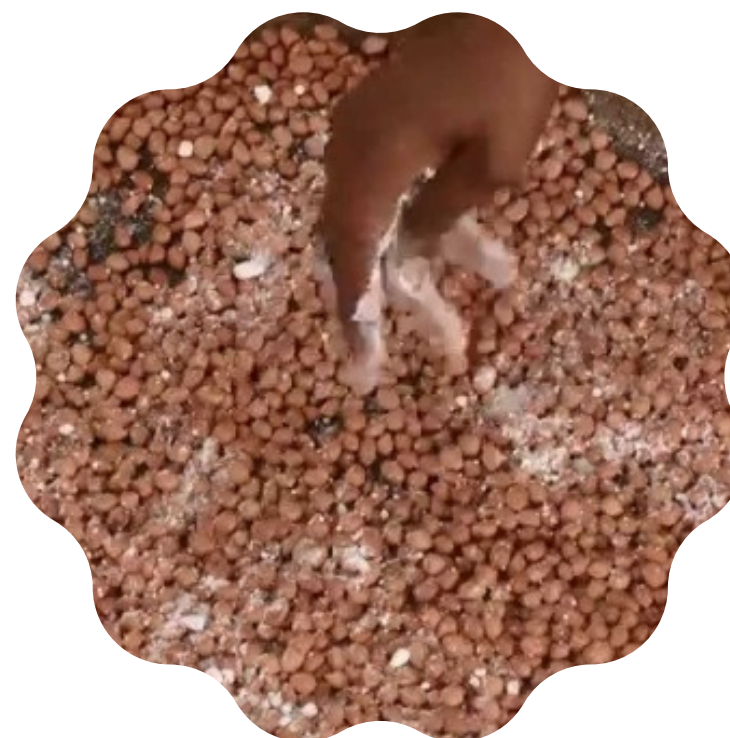

Category :- Plant Growth Promoter

Ruby formulated spores of Mycelial fragments of Ascomycota. It can withstand a wide range of pH and temperature conditions. It produces two growth proteins that enhance seed germination. It produces enzymes which induces disease resistance in crop. It is used in Silver scurf, Black curve, Black dots, Fusarium wilt, Verticillium wilt, Red rot and crown rot.

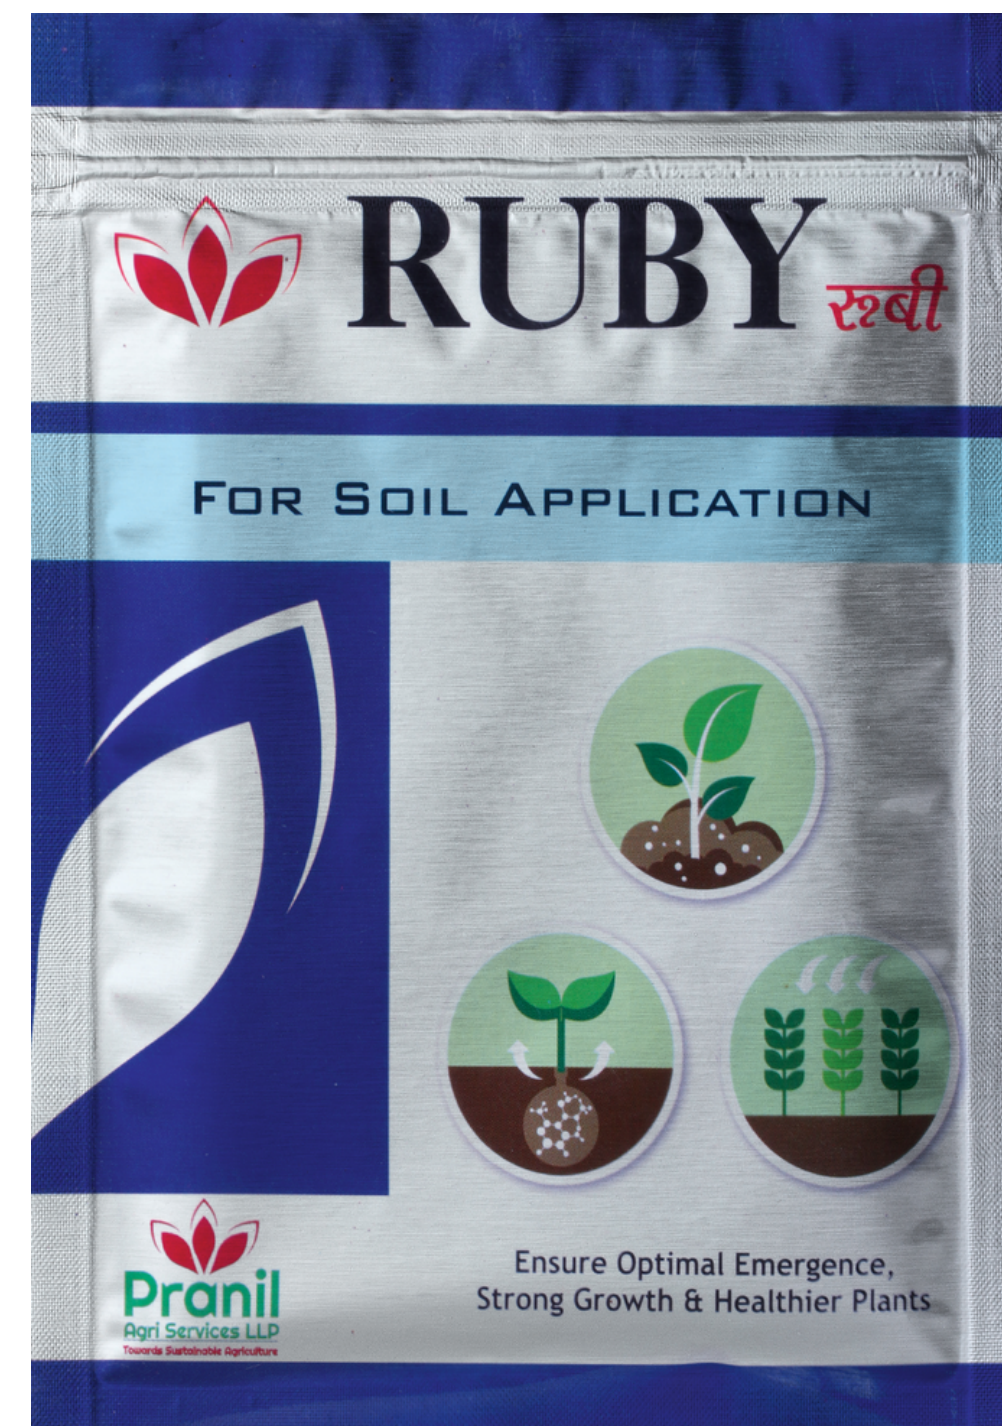

- Mode of Application - Seed Treatment & Drip
- Application Dose -
 - Seed Treatment - 1 GM / 1 KG of Seed
 - Drip Application - 100 GM / Acre

Packing Size :- 50 GM & 100 GM

Seed Treatment

Control "Fusarium wilt"
